# U.S. WORK

## Historically, We Have Supported LE in 28 States.

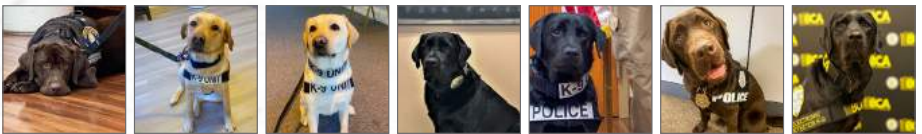

In January, we announced our support of Operation Silent Predator, an undercover op by Mesa Arizona PD and surrounding law enforcement agencies that targeted child sex predators. Suspects thought they were contacting minors 14 years old and younger for various sex acts, when in reality they were conversing with undercover detectives.

9 suspects from this operation have now been indicted on charges including attempted sexual conduct with a minor, child sex trafficking, and luring a minor for sexual exploitation.

We are grateful for Mesa PD and other participating law enforcement agencies for their dedicated efforts in this ongoing investigation.

O.U.R. IN THE US

# INTERNATIONAL

Despite this year's travel restrictions, the O.U.R. Ops Team worked tirelessly with partners to continue undercover work and operations. They remain in-country and are able to continue working with law enforcement around the world.

## Operation Spotlight

### 4,000th survivor rescued

In July, O.U.R. along with our law enforcement partners were able to rescue our 4,000th survivor "Perla". O.U.R. Aftercare helped cheer her up while she was quarantined during her 12th birthday.

### Sabrina or "Little Wonder Woman"

This brave young girl testified in court and identified her traffickers. Her testimony led to the discovery of 2 more girls.

## OPERATIONS:

On August 3rd at 10am, an adult male was arrested for trafficking 5 girls in Cambodia. With O.U.R.'s support, our partners at Agape International Missions and local law enforcement responded to a tip that this suspect was actively involved in selling children. All 5 girls were rescued during this operation and provided with aftercare services.

During interviews with the survivors, they told authorities that the trafficker was arranging for them to be sold and raped, with all profits benefiting him. The trafficker has been charged with child sex trafficking-related offenses and is awaiting trial from prison.

# AFTERCARE

## HIGHLIGHTS

Aftercare has been able to support survivors in 26 countries this year.

*re-pa-tri-a-tion* | *noun*

1. the return of someone to their own country.

O.U.R. has made a major impact in our repatriation efforts. This year we supported 30 women who were able to fly home after being trafficked to dangerous parts of the Mediterranean.

O.U.R. Aftercare helped survivors enjoy surf camp in Central America.

In February, a life-changing pro bono surgery helped “Andrew” begin his journey to hopefully walk again.

O.U.R. helped a young woman reunite with her family after being kidnapped as a newborn 25 years ago.

## OTHER HIGHLIGHTS

**July 30** – World Day Against Trafficking in Persons: 150 cities got loud and spread awareness

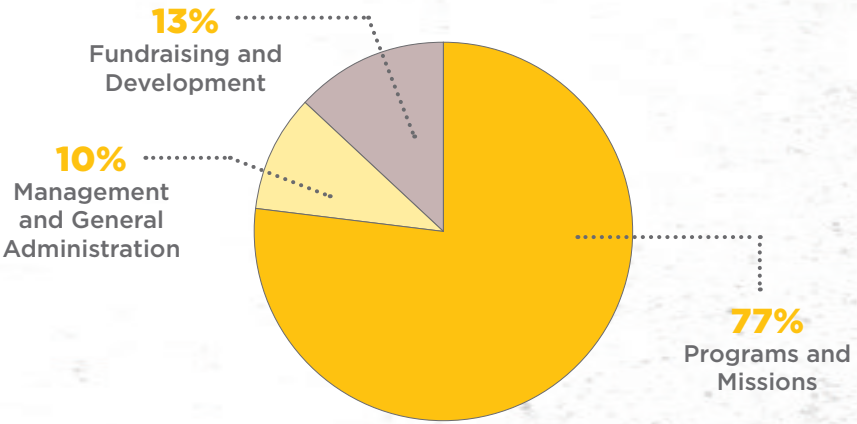

O.U.R. now has 80 organized volunteer teams around the U.S.
